			POD - OPS - 60 + 5 (OED) + 5 (EHS) OPP - 56 Hamilton - 28 Peel - (4 teams of 7) + Command staff.
1623	POD	DI.	Soft approach to alcohol on the streets - have not done it correctly. Decision made after a risk assessment because of the crowd dynamics. Risk assessment - Crowd dynamics. Friendly w/ police want to maintain that. Total alone will be up to 1000 ppl in crowd & fireworks will + mitigate the alcohol. Looking for co-operation from the crowd & are responsive to police. Therefore POD will be implemented; a soft approach to tradition. To prepare for the weekend.
1630	OED	DI.	Burning of any wood open fires not permitted within the City limits. ① Respond & notify ② Notify OPS & respond if requested.
1633	POD	DI.	Crowd is passive, haven't had any alcohol issues. Passing the msg onto the crowd today is prep for the weekend. Will be consistent w/ PHT. Advise DI who - But has been advised. Prepare fuel accordingly.

1634	Dr.	OED.	Re addressing re-fueling str.
			REDACTED
			Contact to attend a special demonstration about the reqs.
		*	Request for RCMP air services. They suggested 2 options.
1636	RCMP	Dr.	① RCMP has 1 plane in Montreal & 1 in London, both have downlinks. Could request assistance from 1 of them. We would need pilots & a TFO to operate the downlink system.
			② If we cannot get a plane from Cdn or Odn, we could use a civil helicopter. Aircraft is already in Ottawa, but does not have the camera (which is in St Hubert Quebec). We would have to send it back to Cdn to pick it up. We would need a TFO to operate the downlink system. If we chose this option, we would need a helicopter from Partners (SP or OPP). REDACTED
			REDACTED
		*	OPS requested live images from OPP camera 206. Not possible to downlink from that aircraft.

1844	CFD	DI	Flashed has resources to remove but will be loud. (1) Flashed truck - loud. (2) cut it up w/ a chainsaw. Bldg is not an imminent danger to the public.
1848	[REDACTED]	[REDACTED]	[REDACTED] DISC and is hostile Indigenous group there saying they can keep their fire more Other person there (group) was compliant, he would require 3 PO's (Lead (Horn & EPS) feels it would excite the police from Wellington. Fuel not safely stored in the physical location. That is fire code - site not appropriate for fuel storage. PLT not as yet.
1853	DI	Horne	Meet the lawyer at 11/PLT. [REDACTED]
1857	SIS	DI	[REDACTED] team heading down to 474 Esplanade.
1858	POD	DI	Recommendation - too much risk for officers safety & public safety to remove it all. Fire says the fuel is in approved containers - not imminent threat. No environmental risk.
1900	Horne	DI	[REDACTED] is the Indigenous elder.
